

## 20 YEARS OF SAFE AND EFFECTIVE PPC CLEANING

In the past several years, attention has been drawn to the dangers of contaminants and carcinogens seriously impacting on the health of first responders. Regular cleaning of protective clothing has been highlighted as an essential care and maintenance step that assists in protecting against these contaminants. NFPA 1851 compliant CITROSQUEEZE® is the recommended technical detergent available for safely cleaning oil, soot, grease and other contaminants from all types of PPC and FR clothing.

- For routine cleaning of all PPC and FR clothing
- Easy to use, high performance cleaning solution
- Effective on dirt and grime
- Environmentally friendly, biodegradable formula
- 20 years / 2 million sets of gear without a single incident of damaging apparel
- Available in a 946ML spray bottle "pre-treatment" or a bulk 3.78L jug
- Convenient measurement indicators on the side of the jug for fast dispensing
- NFPA 1851 compliant

# CITROSQUEEZE®
