

SEIZ

S-RESCUE GLOVES

Specialised rescue gloves, packed with features made specially for technical rescue applications.

Seiz S-Rescue gloves strike the perfect balance between comfort, dexterity and protection. They hold an anatomical shape for premium dexterity and comfort while featuring additional padding under the palm and elastane/polyamide knuckle protectors for optimum performance in diverse rescue situations.

A. BACK OF THE HAND: Signal yellow fabric blend of elastane and polyamide.

B. PALM OF THE HAND: Black fabric blend of elastane and polyamide. Kevlar® reinforced sections suitable for applications with contact heat up to 250°C (i).

C. LINING: Kevlar® and fiberglass (not visible).

D. CUFF: Blended elastane and polyamide fabric. 80mm long with 30mm elasticised ingress skirt. Hanger loop with D-ring attachment (ii).

E. KNUCKLE PROTECTOR: Padded layers of elastane and polyamide blend fabric over the top of the hand finger joints.
