

## CAP LAMP PLINTH

The Cap Lamp Plinth is a two piece lighting solution made from hard wearing industrial plastics.

It has been precision designed to fit to the front of structural fire helmets using the front plinth system, like the F15 or the F20H, in place of a regular helmet plinth, while the cord retention clip slides into the Pacific Easi On Off Base (EOB), part of the side adaptor plates.

**A. 2 PIECE SET.** Supplied as two pieces, plinth (i) and Easi On Off Base (EOB) cord retainer (ii).

**B. MADE FROM DURABLE INDUSTRIAL PLASTICS.**

**C. PACIFIC PLINTH SYSTEM COMPATIBLE.**

**D. LIGHTING SOLUTION FOR UNDERGROUND MINING APPLICATIONS.** Attach the Adaro L.50 Cap Lamp (iii) or the ALFA WL Cap Lamp to the front of a plinth compatible helmet in place of a standard plinth.

## COMPATIBLE CAP LAMPS
