## TITAN PBI® STRUCTURAL FIREFIGHTING GLOVES

The Titan PBI® Structural Firefighting Gloves represent years of research that balance paramount protection and optimum dexterity.

Developed with the wearer in mind, the Titan PBI® glove from MSA Bristol offers a unique, anatomical fit and broad sizing range. These gloves are tough! The Titan PBI® gloves boast an exceptional lifespan due to their resilience when undergoing regular cleans.

**A. BACK OF THE HAND:** Titan PBI® (1260) Gold.

**B. PALM OF THE HAND:** Double face knit of Kevlar® with Silicon Carbon coating - extended down onto the cuff.

**C. MOISTURE BARRIER:** GORE-TEX® CROSSTECH® (not visible).

**D. LINING:** Senso lining system. Strong & permanent link between Kevlar® lining, CROSSTECH® moisture barrier and outershell (not visible).

**E. CUFF:** 80mm Nomex® knit.

**F. KNUCKLE PROTECTOR:** Kevlar® / Nomex® flexible heat absorber.

**G. REFLECTORS:** Silver reflective piping.

**H. PULSE PROTECTOR:** Palm material extends down the 30mm past the cuff, includes hanger hole. Kevlar® with Silicon Carbon coating tab facilitates donning and provides a storage solution.

**I. SHAPE:** 3D articulated, for optimum dexterity and comfort.

**J. HIGH WASH COUNT.**
