### A. Hand length (in mm)

take this measurement from the palm side of the hand

### B. Hand circumference (in mm)

measured 20mm above the thumb crotch

• MSA Bristol Wildland Gloves come standard with a moisture barrier and liner.

1. Using a flexible tape measure, measure the distance between the tip of your longest finger and wrist. *Take this measurement from the palm side of the hand.*
2. Then measure the distance around your hand (circumference), take the measurement 20mm above the crotch of your thumb.
3. Record your measurements and using the tables find your size for the MSA Bristol Wildland Gloves.
